

Medication Shortages Update

Many patients are currently experiencing difficulties accessing certain medications due to the ongoing conflict in the Middle East.

We know how frustrating and worrying this can be, especially when it affects your usual treatment. Please be reassured that we are doing everything we can to obtain supplies.

In some cases, you may be issued a prescription so you can try alternative pharmacies—particularly larger stores, which may have access to a wider range of suppliers or hold more stock.

Our teams are working hard behind the scenes to find solutions and ensure continuity of care wherever possible.

We kindly ask for your patience and *understanding during this time*. Please remember that **dispensary and healthcare staff** are here to help you—your support and kindness make a real difference.

Thank you for bearing with us
